Connect with the FileMaker community

Online forum Meet and exchange ideas with other FileMaker users and developers via the FileMaker Tech Talk online discussion forum.

- Get tips from the experts online
- Network with other like-minded developers
- Share your expertise with others

Get tools to build better solutions

Software Stay on the cutting edge of FileMaker solution development with FREE and pre-release software.

- FileMaker Server Advanced Development License
- FileMaker Applications
- FileMaker Graphics pack
- FileMaker Themes Pack
- Pre-release software

Save on FileMaker-related products

Product Discounts Take advantage of special discount opportunities and your FileMaker TechNet membership can start paying for itself!

- Get discounts on FileMaker-related products from our third-party partners. Save on developer tools, plug-ins, publications, training courses, templates and more!
- Save 50% off the FileMaker Training Series book and CD.

A world of resources at your fingertips

Who should join?

Any individual who wants to enhance their FileMaker skills and learn the latest in FileMaker solution development would benefit from joining the FileMaker TechNet. Whether you're just starting out, or have been developing databases for years, the FileMaker TechNet can help you get more out of FileMaker.

Do you...

- Build FileMaker solutions for yourself or for clients?
- Develop solutions for your organization?
- Manage FileMaker solutions for your department or organization?
- Create FileMaker products or services to sell commercially?

If you answered "yes" to any of these questions then the FileMaker TechNet* is for you!
