

FileMaker Go for iPhone

\$ **19.99** US

Access your FileMaker Pro information anywhere you go

View, edit and search your FileMaker Pro records on your iPhone with FileMaker Go. Check inventory in the warehouse, manage event registration or update project status while on the go.

Easily use your existing databases, or create customized databases for your iPhone using FileMaker Pro. Then remotely access your information with FileMaker Go.

Get your favorite FileMaker Pro features on FileMaker Go

Work with data just like you would on FileMaker Pro:

- **New!** Save records as PDF and email as an attachment
- **New!** Save a copy of a database and email file
- **New!** Add, open, and email photos
- **New!** Import FileMaker Pro records via scripts
- Add, modify, or delete information
- Find, sort, and navigate through records
- Display data in familiar Form, Table, and List views
- View information in portals, tabs, or Web Viewers
- Search for information using Quick Find
- Connect to External SQL Data Sources
(requires database to be hosted via FileMaker Server or FileMaker Pro)

Top FileMaker Go Uses

- Conduct inventory checks while in the warehouse

Language - English, French, Italian, German, Spanish and Japanese

Requirements

- Compatible with iPhone and iPod touch
Requires iOS 4.0 or later
- Requires FileMaker Pro or FileMaker Pro Advanced to create or modify databases
- Connecting to hosted databases requires FileMaker Server/Server Advanced 11 or 10 or FileMaker Pro/Pro Advanced 11 or 10

*While FileMaker Pro 8.5, 8, and 7, FileMaker Pro Advanced 8.5, and 8, and FileMaker Developer 7 are technically compatible, they are no longer supported by FileMaker, Inc.

Access your databases on FileMaker Go

There are 3 convenient ways to access your information on FileMaker Go:

1. Connect to databases hosted on FileMaker Server or FileMaker Pro via a local wireless network or over the Internet using Wi-Fi or 3G. All changes are instantly updated in the hosted file. This makes it easy to share information with a team.
2. Copy your databases between your desktop or laptop and FileMaker Go for iPhone using File Sharing in iTunes. This is ideal for single-user databases. (Note: While copying files is supported, synchronization is not).
3. Copy your databases to FileMaker Go by downloading the file from email, popular file sharing sites, or the web.

Is FileMaker Go for iPhone right for you?

If you answer "Yes" to the green light questions, then FileMaker Go for iPhone is right for you.
