

FileMaker Product Comparison

Step 1: Choose your desktop software

There are two versions of FileMaker Pro to choose from: FileMaker Pro 10 or the more customizable FileMaker Pro 10 Advanced.

Products	SRP*	Ideal for	Key Features	When to use
FileMaker Pro 10 	\$299	Anyone who creates or uses a database	<ul style="list-style-type: none"> Create a database in minutes and store virtually any file type. Choose from 30 Starter Solutions to help build beautiful databases with ease. Share information on a network or over the web with both Windows and Mac users. Build reports and email them to your colleagues as Adobe® PDF or Microsoft® Excel files. Put commonly used features at your fingertips with the new Status Toolbar. Increase your productivity with Script Triggers, Dynamic Reports, Saved Finds and more. 	Use as a stand-alone product or as a client to a shared database
FileMaker Pro 10 Advanced 	\$499	Individuals that frequently modify their databases OR administer their organization's databases	<p>Get all the capabilities of FileMaker Pro, PLUS:</p> <ul style="list-style-type: none"> Design and develop databases faster and easier with Custom Menus, Custom Functions and more. Debug and troubleshoot more efficiently using the interactive Script Debugger and powerful Data Viewer. Modify and maintain databases with ease using the advanced Database Design Report and Multiple Table Import. 	Use as an <i>alternative</i> to FileMaker Pro for advanced functionality

Step 2: Decide if you need server software

Whether you have a team of 2 or a department of hundreds, FileMaker Server makes it effortless to securely share your FileMaker Pro databases with Windows and Mac users on your network or over the Web.

Products	SRP*	Ideal for	Key Features	When to use
FileMaker Server 10 	\$999	Teams of FileMaker Pro users or web developers	<ul style="list-style-type: none"> Share your databases with unrivaled availability, security and performance, over the network or on your website. Manage your databases and check status from anywhere on your network. Schedule automated live backups to ensure data integrity. Create a shared live connection to MS SQL Server, Oracle or MySQL data sources. 	Use to network FileMaker Pro/Advanced desktop clients
FileMaker Server 10 Advanced 	\$2,999	Teams that need Instant Web Publishing or need to submit SQL queries to a FileMaker Pro database	<p>Get all the capabilities of FileMaker Server, PLUS:</p> <ul style="list-style-type: none"> Submit SQL queries or statements to a FileMaker Pro database from an ODBC or JDBC client. Share your databases with large groups of web users with Instant Web Publishing. Connect up to 999 FileMaker Pro users at the same time – 4x more users than with FileMaker Server 10. 	Use as an <i>alternative</i> to FileMaker Server to network desktop clients AND enable connectivity options
